

# Windermere Station Gateway

## Station Option 1

This option keeps the station building in its current location and improves the space around it. It would provide more room inside the station, and better shelter, seating, planting and signage to help people find their way.

### 1 Station Building

The existing station building would be extended to provide more space for passengers and facilities.

Floorspace area: 130m<sup>2</sup>  
› Existing: 74m<sup>2</sup>

### 2 Canopy

A new covered area would provide shelter and additional space to wait.

Canopy area: 110m<sup>2</sup>  
› Existing: 20m<sup>2</sup>

### 3 Forecourt

The space outside the station would be improved with more planting, seating and clearer signs.

Forecourt area: 890m<sup>2</sup>  
› Existing: 508m<sup>2</sup>

### 4 Seating

More seats would be provided across the station area to make waiting more comfortable.

Number of seats: 23 no.  
› Existing: 10 seats

### 5 Access & Movement

Parking and drop-off areas would be simplified to improve safety and make the station easier to use.

### 6 Cycling

A new cycle hub would provide secure storage and hire facilities.

Which parts of this option do you like most and why?
